Welcome to Auction #30

British Commonwealth, US and foreign countries are strongly represented in this sale. From single better items to banker box lots and valuable collections offered intact, there is something for everyone. Specialized collections of Italy, Hong Kong, Mexico, Ireland and New Zealand should be inspected closely. Over \$100,000 face value of Canada, US and UK stamps from new issue services are offered in large lots, with the proceeds of this estate being donated to charity. Specialized collections of Bhutan, Canada's Lady boat covers, Canada's Mufti and War issue will attract steep competition. A highly specialized collection includes revenues, revenue stamped paper, duck stamps, Canal zone and US possessions.

Canada Stamps - Fakes

Prosser was a trained engraver, employed by CBNC and BABNC and reportedly produced these as practise for his craft. Interestingly, these designs were absent of the phrases "Canada Postage", or denominated and therefore skirted the edge of legality as mere "artwork". In the early days of their appearance, they were offered by some dealers as legitimate essays, proofs or vignettes from the stamp issue. There is no record of them being produced at the time, and some designs on highly fluorescent artisan craft paper with metallic flakes exposed them as modern creations.	\$150
